Professional Summary

Motivated Computer Science graduate with a strong passion for software development, eager to contribute to innovative projects while continuously learning and growing in a professional environment.

Education

Sri Vasavi Engineering College Bachelor of Technology in Computer Science Engineering	2021 – 2025
Sasi Junior College Intermediate (M.P.C)	2019 – 2021

Technical Skills

Programming: Python, Java, SQL
Frameworks: Django
Web: HTML, CSS, Bootstrap
Databases: MySQL
Tools: Git, GitHub

Experience

SAP Security Specialist Intern <i>Altzen Technologies</i>	Feb 2025 – May 2025
---	---------------------

- Managed SAP user accounts and authorizations using SU01, SU10 and SM30.
- Created and maintained authorization roles using PFCG and SUPC.
- Investigated authorization issues using SU53 and analyzed system dumps using ST22.
- Monitored SAP background jobs and active user sessions.

Projects

OceanWaves POS – Production Point of Sale & Inventory Management System

- Developed a POS and Inventory Management System for OceanWaves Sea Foods to streamline billing, inventory tracking and sales operations.
- Developed billing, inventory and sales management modules.
- Implemented secure authentication and role-based user access.
- Generated sales and inventory reports and assisted in production deployment.
- **Technologies:** Python, Django, MySQL, HTML, CSS, Bootstrap.

Car Recommendation Chat Bot

- Developed an AI-powered chatbot using the GPT-3.5 Turbo LLM and LangChain to recommend cars based on user preferences.
- Built an interactive Django web application.
- Improved recommendation quality using a structured automobile dataset.
- **Technologies:** Python, Django, GPT-3.5 Turbo LLM, LangChain.

AI Assisted Inventory Management System

- Developed a Django-based inventory management system to help businesses monitor inventory and optimize stock replenishment.
- Implemented machine learning models to analyze inventory data and predict restocking requirements.
- Designed modules for vendor management, billing, and automated email notifications to improve operational efficiency.
- Built an interactive dashboard to visualize inventory status and support data-driven decision making.
- **Technologies:** Python, Django, MySQL, Bootstrap, Machine Learning.

Certifications

- Microsoft Azure Fundamentals
- ServiceNow Certified System Administrator (CSA)
- Machine Learning Virtual Internship – Skill Dzure

Achievements

- Secured 2nd Place in the Web Designing Contest during the college technical fest.
- Volunteered in organizing a 24-Hour Hackathon.
